

Freedom of Information Request FOI1005

Request:

Please could you provide me with the total number of fixed penalty wheelie bin fines issued for all residential property types in 2018, as per your local authority.

If possible could you please break down the number of fines per the reasons as cited on the Gov.uk website:

- causes an obstruction to neighbours, such as forcing people using wheelchairs or buggies to walk on the road
- restricts access to the pavement or street, for example leaving waste receptacles (bins or bags) out for several days
- is likely to attract vermin like foxes and rats, such as leaving bags or open receptacles out days before a waste collection
- is unsightly (torn bags or overturned receptacles are left out)

Submitted on 21/03/19.

Response:

Please could you provide me with the total number of fixed penalty wheelie bin fines issued for all residential property types in 2018, as per your local authority.

If possible could you please break down the number of fines per the reasons as cited on the Gov.uk website:

- causes an obstruction to neighbours, such as forcing people using wheelchairs or buggies to walk on the road

North Tyneside has not adopted this policy of issuing FPNs in this instance

- restricts access to the pavement or street, for example leaving waste receptacles (bins or bags) out for several days

North Tyneside has not adopted this policy of issuing FPNs in this instance

- is likely to attract vermin like foxes and rats, such as leaving bags or open receptacles out days before a waste collection

18 FPNs issued for bags left on highway, not in a bin containing evidence

- is unsightly (torn bags or overturned receptacles are left out)

18 FPNs issued for bags left on highway, not in a bin containing evidence
