

Freedom of Information Request FOI1232

Request:

North Tyneside Council is one of the seven local authorities that part owns Newcastle International Airport.

It is understood that the seven local authorities or, as the case may be, their predecessors agreed that taxis from all seven authorities would be entitled to operate from the airport, subject of course to having permission from the airport operating company to work from the airport.

Until very recently, taxi provision at the airport has been operated on this basis with Airport Taxis utilising taxis from all seven local authorities,

Does North Tyneside Council hold any contract and / or other documentation relating to the provision of taxi services at the airport?

As a result of the recent change at the airport, which has seen the provision of taxis at the airport being provided by a Newcastle City Council licensed private hire operator using, as they would have to, Newcastle licensed private hire vehicles and drivers.

Submitted on 13/05/19.

Response:

Information not held. This request should be directed to Mike Harding at South Tyneside Council who is the company secretary of Newcastle International Airport Local Authorities Holding Company Limited.
