

## Freedom of Information Request FOI1539

### Request:

Under the Freedom of Information Act, will you please let me know your programme of kerbside drain cleaning in North Shields and the company delegated to doing it. I refer particularly to the drain at the Coach Lane end of Railway Terrace, North Shields, which frequently floods the street.

Submitted on 30/07/19.

### Response:

All gullies/channels which are maintained by North Tyneside Council are subject to routine inspections at least every 6 months, where any necessary works are undertaken. The company delegated to carry out these inspections and the physical work is Capita.

The gullies at this location were assessed at the beginning of August – the next routine inspection will be carried out in September 2019.
