

Freedom of Information Request FOI1999

Request:

Would you be able to let me have the following:

- LADO generic details with name of current LADO - this is for consolation on professionals.
- Fostering Team generic email and tel number or admin contact - for background checks and applications for exemptions.
- Initial Response or MASH service generic email and contact - for contact and consultation on general matters and notifications under the regs.

Where roles aren't shared under the partnership can you let me have the details for the contact in each Authority? I know they is an on line form for children at risk, but these are more than required under the regs as there is a duty to inform you as a host authority.

Submitted on 21/11/19.
