

Reference: FOI2991

Request:

Please release the following information under the Freedom of Information Act:

The total amount of money your organisation spent on projects which have ultimately been cancelled.

The exact amount of money spent on each individual project in your area which has ultimately been cancelled. - Not applicable See above

Please provide the following information for both requests covering the following years:

2016

2017

2018

2019

2020

Clarified by applicant: The type of projects I require the information for includes building, infrastructure and regeneration projects that have either been cancelled, put on hold indefinitely or scaled down from their original planned format following initial investment. Please provide the total sum of money spent as well as the amount spent on each individual project during the years specified (2016, 2017, 2018, 2019, 2020.) Please provide a breakdown of each project.

Response:

After consultation with relevant officers we do not have any projects that have had money spent on them and then haven't gone ahead. Whilst we may complete some feasibility work in relation to some projects which do not ultimately go ahead, we do not collate individual hours/costs at that stage.
