

North Tyneside Council

Reference: EIR-498

Request:

I request information about the air quality in the Tyne Tunnel.

1. Does the council or it's agents TT2 monitor air quality in the tunnel?
2. Is particulate pollution PM2.5 OR PM10 monitored?
3. Is NOX levels monitored and what are the levels seen?
4. Does this comply with the new WHO air quality recommendations and what steps are being taken to ensure improvement?

Response:

The Authority does not carry out air quality monitoring inside TT2. Any monitoring that may take place will be completed by TT2 and therefore the data would be held by them.
