3. The details of any reported incidents of asbestos exposure in these schools between 2010 and 2019.

There have been no reported incidents of asbestos exposure in these schools between 2010 and 2019.

4. Details of any improvement or prohibition notice served or guidance issued by the HSE in relation to the management of asbestos in schools in your area in the last 5 years.

None

5. The number of school employees (existing and retired staff to include teaching staff, school support staff and caretakers, etc) and ex-pupils that have pursued a claim against the Council for exposure to asbestos within a school in your area.

This information is not held by the Authority for the purposes of the Act.

It is held by the Authority on behalf of each individual school.

Therefore, this information should be requested directly from each school.

Link to schools to contact details can be found here:

8. The details of training offered to school governors, teachers or similar who carry out an inspection.

Training is provided by the Health and Safety team and is advertised accessed/offered to all through the online Education Services Portal.

Outline

This course provides an overview of ways to manage asbestos containing materials in North Tyneside Schools. It is aimed at giving introductory knowledge to help duty holders and appointed persons to comply with their responsibilities under current regulations.

Description

This training course gives duty holders and appointed persons an introduction and basic understanding of their legal responsibilities under the control of asbestos regulations. It provides understanding on the Shine database and provides advice on ways to manage asbestos within your school establishment.

9. The number of 'System-Built Schools' in your area.

There are 3 system-built schools within North Tyneside.

- 1 CLASP
- 2 SCOLA

The information supplied to you is owned by the council unless otherwise stated and may be protected by copyright. You are free to use it for your own purposes, including any non-commercial research or for the purposes of news reporting. Any other re-use of a commercial nature will require the permission of the Council. 10. The number of schools that have dealt with a leaky roof or a broken window or a damaged wall panel, during the past 5 years. (i.e. where the fabric of the building has been disturbed).

Asset Management do not hold this information. Schools hold their own budget and as such commission their own repair work. Asset are there in an advisory capacity to ensure works are carried out in a safe manner.

11. Finally, details of when and why you have commissioned emergency asbestos air testing across your school's estate.

Emergency air monitoring is only carried when there has been a report of suspect ACM's that may have been disturbed. This is in line the Councils Asbestos Management Procedure, and escalation process.
