2) How many of the applications specified above were refused on Health and Wellbeing Related Planning Concerns? (Please supply reference numbers)

## **Planning Response:**

Health and wellbeing covers a range of issues from ensuring a safe, attractive and well designed environment, to ensuring access to green infrastructure and sports facilities and encouraging walking and cycling and promoting healthier eating. It also covers the impact of pollution on health, including, among others, noise and air quality.

In this context many reasons for refusal may relate to health and well being issues where this is not specifically referred to in the reason for refusal.

In this context it is not possible to provide a response to Q2.

Decision notices relating to all of the 318 refused applications are available to view on line and the reference numbers are provided as an Appendix to this FOI to enable analysis of individual reasons:

4) How many Major Development Planning applications were accompanied by a Health Impact Assessment? (Please supply reference numbers)

**Planning Response:** a health impact assessment may be a standalone document or incorporated within an Environmental Impact Assessment or Sustainability Appraisal or Integrated Assessment. Planning application records are not held in a form which allows interrogation based on the type of supporting documents which have been submitted with an application. It is not therefore possible to provide a response to FOI Q.4.

For information, a standalone health impact assessment was submitted with application 16/01922/FUL.

Since the Town & Country Planning (Environmental Impact Assessment) Regulations 2017 came into effect, the impact of development on risk to human health is required to be considered in any Environmental Statement. The following major applications have been accompanied by an Environmental Statement prepared in compliance with this legislation:
