

Reference: FOI2539

**Request:**

1. How many desktop users do you have in your organisation that have a PC/laptop?

3267 devices

2. What Microsoft products and versions do you currently licence for your desktop users and quantities of each? For example, Windows 10, Office 2016, Office 365 etc...

126xVisio (2000-2016), 348xProject (98-2010), 3035 E3, 150 F1 and 230 A3 365 licences

3. What Microsoft Server products and versions do you currently have licensed? For example, Windows Server 2016, SQL Server 2016

We are licenced for Windows Server 2019 with downgrade rights to previous versions. We are licenced for all current versions of SQL Server, covered by software assurance agreement.

4. Do you use Microsoft Azure, Amazon Web Services or another cloud provider to host any of these server products?

We are using Microsoft Azure and have started a test environment and proof of concept.

5. If so, what is the expiry/anniversary date for your current/most recent Microsoft Enterprise Subscription agreement or Enterprise agreement?

13th October 2020.

6. When will you next review your IT estate including desktops and servers?

There is no fixed date for the review of servers, it is done as a rolling cycle as server support is due and in line with the NTC Digital Strategy. The Desktop estate is reviewed April, it is then decided with NTC what will be replaced.

7. What is the name, telephone number and contact email address of your Head of IT, Chief Information Officer and Head of Procurement?

Mike Truran [mike.truran@northtyneside.gov.uk](mailto:mike.truran@northtyneside.gov.uk) is Head of IT. Can NTC add Chief Info Officer and Head of Procurement.
