

North Tyneside Council

Reference: RFI 1710024

Request:

I wish to make a freedom of information request about work completed by Road Maintenance company Hatton this month in NE30 2JA and the surrounding area.

In particular, I wish to see the relevant correspondence relating to the nature of the work being undertaken and in particular, what permissions were granted for the company by NT Council to conduct such works and the nature of the agreement entered into -inc. areas to be affected, the hours works could be conducted and what notifications residents should have expected to receive, if any.

Response:

Hattons are a traffic management company, they were managing the traffic management on behalf of BT.

For major works, North Tyneside Council would request that the utility company notify residents, however this is not a mandatory requirement.

BT applied for a permit to work on the adopted highway. See below screen shots of the permit which BT applied for, which outlines the conditions of that permit.
