**Request:**

This is a request under the Freedom of Information Act (FOIA), for details regarding the following:

1. Have rates for sleep-in shifts paid to providers of domiciliary care for young adults under the age of 65 with special needs, or to residential care providers (under 65 or over 65) been amended during the 2017/18 financial year?

The domiciliary care service does not have a separate rate linked to “age” or “need” as set out in the question. The domiciliary care service pays £77 per night for a sleep in, which is the same rate paid in ISL services.

The rates for residential care over 65 do not have a specific rate linked to sleep-ins. Weekly rates are agreed that encompass the whole package of care and are negotiated every year.

For ISL services (for learning disability and mental health) there is a standard sleep in rate of £77.00 per night

2. What rates have been agreed and communicated to providers in this regard?

For domiciliary care, a letter was sent to providers about general service rates for 2017/18.
