

Request:

We are currently contacting all of the councils in the UK to update our list of statutory undertakers (utility companies – electricity, water/sewers, gas, telecoms etc.) operating in each council area.

We need this information to ensure that all relevant utilities are contacted, on behalf of our clients, to obtain information regarding the location of their underground/overhead assets. Our client will then use this information to, as part of their feasibility studies, locate any assets, avoid digging through any cables/pipelines, and investigate the potential for connecting with a network.

If available, please could you provide us with an up to date list of all of the known utilities currently operating in your area? An example of a typical statutory undertakers list is attached.

Response:

- BT
- Northern Power Grid
- Northern Gas Networks
- Northumbrian Water
- Virgin Media
- O2
- Vodafone
- Fulcrum
- Network Rail
- T-Mobile
- GTC
