Parks	Betram Grange Recreation Ground	Earsdon View Shiremoor NE27 0HR	431917	571823	3.064

2. How much budget have the local authority invested to manage the recreational green spaces or parks or facilities in the Green belt every year since 2015? Please let me know the amount of investment by year.

The capital expenditure incurred in the facilities over the last 5 financial years is

2015/16 £0.000m

2016/17 £0.180m

2017/18 £0.013m

2018/19 £0.023m

2019/20 £0.022m

3. Has the local authority invested to create the new recreational green spaces or parks or facilities in the Green belt since 2015? Please let me know the name of them, the budget invested and project outline etc.

No new parks, allotments or burial sites have been created in the Green Belt since 2015

4. Did the local authority buy the private land to create the recreational green spaces or parks or facilities in the Green belt from 2015 to 2020? Please let me know the name of them, the budget invested, year etc.

n/a

North Tyneside Council

5. If there are the good examples of using green belts as the recreational spaces, please introduce them.

Our wagonway network is a good example:

Over 15 years ago, the Heritage Lottery Funded supported a project to update and bring “back to life” the Wagonway public right of way network around the Borough as linear green spaces This included upgrading of the infrastructure of the network, and an interpretation project including boards and leaflets, an activity programme together with a staffing resource to provide maintenance.
