

Reference: EIR4722

Request:

I would like to know the amount of money spent on pothole repairs (£).

Please find attached an Excel spread sheet which shows the number of potholes and the amount of money spent on repairs. It is divided into financial years from 1st April 2016 up to 14th February 2022

I would also like to know the amount of money spent on pothole related compensation (£). I would like to know the least, most and average amount of money spent on compensation for pothole damage.

Please find attached reports in respect of pothole claims for the periods 2019, 2020 and 2021. We are only able to provide information in respect of pothole claims from October 2019 onwards as we moved onto a new claims software package, and the old claims system does not allow us to isolate pothole claims from other highway incidents.

Finally, I would like to know how much you have spent on any consultant costs relating to potholes.

There have been no consultant costs relating to the identifying or repairing of potholes over this time period.

I would like this data for each of the last five calendar years as follows: 2017, 2018, 2019, 2020, 2021.
