We are working to maintain planning services during the COVID-19 outbreak. Although some restrictions are being lifted, in line with Government advice, staff continue to work remotely and are not attending face to face meetings unless absolutely essential. This means that our planning reception service remains suspended and you are currently requested not to visit our offices at Quadrant. You can still contact the Planning team via development.control@northtyneside.gov.uk or leave a message on our general phone line (0191) 643 2310, which will be checked daily and we aim to return calls during the service times. Please be assured we are doing everything possible to maintain a 'normal' service but there may be some delays. We thank you for your continued understanding and co-operation at this time.

Good Morning

Your property has no TPO's within it and it is not within a Conservation Area.

Hi Liz

Thank you for your prompt reply.

I'm the owner of 8 Grenada Place, NE26 1HY. I'd like to know if a TPO covers any trees within the boundary of my front and back gardens.

Kind regards

Sharon

Thank you for your enquiry. Please can you let us have a location plan of where you would like us to check, the area you have asked us to look at does cover a large area so we would need to have a specific location of where you are looking at.

Kind Regards

Kind regards
