

The Children in Care Council (CICC)

is made up of children and young people who are in care living in North Tyneside.

We meet as a group and are involved in various projects to help make important changes to the lives of children and young people who are care experienced.

The Children in Care Council allows us to influence policies, strategies and decisions. The views of the group are regularly shared with North Tyneside Council to help create change and make sure the views of young people are understood. We get involved with opportunities to share our views regionally and nationally.

We are looking for new young people to come and join us.

You can help by telling us how we could change things, what is working and support in making these changes happen.
