NEPO202 Managed Remarketing of Vehicles and Plant	Ojeu Open	Transport	This framework is set up to sell the Authorities vehicles and simlair assets, achieving highest value for money via a managed service to re-market the vehicles effectvelly and sell via auction. This is a zero cost framework in that the first ranked supplier CVA does not charge any upfront costs to the contracting authorities and instead charges a buyer premium based on the final selling price of a vehicle or asset. As a consequence there is no spend in the usual way but the revenue generated from the sales is an income stream returned to contracting authorities. Looking at NEPO rebate data over the 2 years 2017/18 & 2018/19 North Tyneside received income of £34,454 and £50,950 (This is actual income from vehicles not rebate) Spend Data from Steve Whitworth also shows a total of £197,521 income from sales over the 4 year contract.
