

# Youth Council Committees 2023

Committees are made up of youth councillors who are focused on an issue that is important to them and the young people they represent. The aim is to meet with adult decision makers to have a direct voice discussing the issues and agree how they can support each other to achieve a positive change for young people and their families in the borough. Each committee is working on the following:

## Emotional Wellbeing & Mental Health Committee

Working to create better support in schools for mental health issues and work on improving and promoting mental health.

## Environment Committee

Working to reduce the carbon footprint for North Tyneside.

## Equality & Diversity

Working to ensure equality for all with a focus on accessible activities and places in North Tyneside.

## Ready for Life

Working to ensure that young people in education receive the required skills for life after they leave school and enter the wider world.

## Community Safety Committee

Focusing on public health related issues, safety and community engagement.
